NBN Speeds;

Installation;

Non-standard installations may incur additional charges. NBN Co will advise you of any such charges prior to installation. Your approval and acceptance of these charges will be sought prior to work commencing.

NBN services are not currently available in multiple dwelling units (MDUs). The cabling that is required in your premises beyond the optical network termination device is your cost and responsibility, as is the provision of a suitable 240V AC power outlet.
