OTHER INFORMATION

Voice Quality

NBN Home Phone uses a technology called Voice over IP (VoIP). VoIP is a technology that allows phone calls to traverse over the internet. The availability and quality of VoIP services may differ from a standard telephone service. You can make and receive calls while surfing the web, however the VoIP service may be impaired if you do so, depending on the type of surfing or downloading, and your broadband connection speed.

Availability

- NBN phone services are delivered over either Fibre to the Premises, Fibre to the Node, Fibre to the Basement or Fixed Wireless.
- The NBN Phone service is not available as a standalone service.
- A limit of 2 phone numbers are available on the NBN Home Phone plans.

Number Porting

You may port your fixed line phone number onto your NBN Phone service. Phone number ports can take up to 10 weeks to complete. During the porting process, we can supply a temporary number for you to use until your number has been ported.

If porting an existing number, we require a copy of your current providers Invoice for verification purposes.

Other Services

We can provide you with a range of extra services on your NBN Home Phone service. An optional Voicemail to Email feature is available for an additional \$3.30 per month. Please speak to our representatives if you would like to enable this feature.

Billing

When you first start a plan or change your plan part way through a billing period, your first bill will have additional charges. It will include your minimum monthly charge in advance, plus a proportion of your minimum monthly charge based on the number of days left in the billing period. You'll still receive a full month's call and data allowance.

Paper Invoice Charge

Paper invoices incur a fee of \$2.20 (including GST). Receiving your invoice via email does not incur a charge.
